

2023 EXTERIOR IMPACT CATALOG

Quality components create the total package.

Collection of best-in-class components (doors, doorglass, frames, astragals, weather seals, thresholds, locksets, and hardware) used to create entry systems with enduring good looks and superior performance. The majority of our door systems are tested to the HVHZ (High Velocity Hurricane Zone) standards, the most stringent hurricane codes anywhere in the United States. Most Door Systems meet the minimum Florida Energy code.

Great craftsmanship, beautiful glass patterns, multiple finish hardware options, superior construction, and energy-saving features all come together in a wide range of entry systems that enhance the value of your home and add beauty to everyday living.

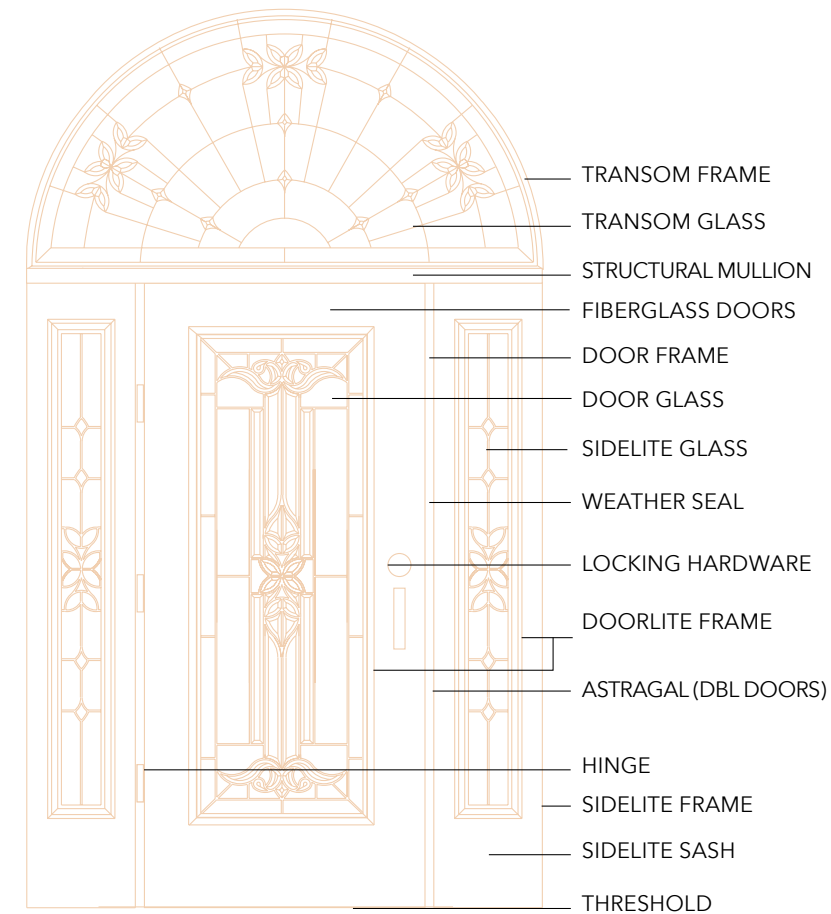

All products featured are in stock ready to be built unless marked special order.

Unless otherwise noted, all products featured can be built into door systems that are compliant with hurricane structural, hurricane impact and the latest energy codes.

THE SYSTEM

Add beauty to and increase the value of your home with ODL's innovative line of doorglass.

FIBERGLASS DOORS AND PF FRAMES™

A lifetime of exceptional durability and performance for every door around your home.

CUSTOM GLASS

Custom glass for doors, sidelites, windows and transoms.

VENTILATING DOORS

Let in the breeze without compromising security with an optional window insert in your door (with a security screen).

THRESHOLDS & ASTRAGALS

For additional security and weather protection our systems use DLP thresholds and astragals.

RESIDENTIAL LOCKSETS

Superior functionality and long lasting beauty.

RESIDENTIAL HARDWARE

Easy installation and secure performance.

TRILENNIUM™ MULTI-POINT LOCKS

The ultimate fiberglass door security system. Multiple latches and bolts prevent forced entry and create additional weather sealing.

ETCHED GLASS

A unique line of doorglass inserts styled for Florida living. Etched glass displays traditional sandblasting.

Weather-seals

Keep cool air in and keep bugs out while benefiting from improved energy efficiency.

DOOR ACCESSORIES

Give your door more character by adding speakeasies, dentil shelves, or clavos.

Specially designed for high-performance and tested for long lasting endurance.

Sustainability

Your Entry System will be built to stand the test of time in Florida's often unforgiving climate. We strive to use as many Eco-Friendly and Energy Efficient components as possible to preserve the environment and help lower your energy bills.

- Entirely Composite Frames
- Insulated Fiberglass Doors
- High Quality Weatherstripping
- Low-E & Turtle Glass Options

Accessibility

Your Entry System can be designed to help you and your loved ones easily access it. We carry multiple A. D.A. compliant components and hardware options specifically designed with ease of use in mind.

- A.D.A. Slabs, Glass, & Hardware
- Ball Bearing Hinges
- Spring Hinges
- Code Approved Pet Doors

Security

The same added strength that helps Impact products protect your home from hurricanes, can also help protect your home from intrusion. In addition, your Entry System has many other component and hardware options designed to give you peace of mind.

- Impact Slabs & Glass
- Multi-point Locking Systems
- Touchscreen Deadbolts
- Privacy Glass

Appeal

Enhance the beauty of your home with our wide variety of Art Glass options from 5 different design families. Whatever your home's aesthetic is, we've got the Entry System you need to make an even bigger impression.

- Camed & Etched Glass
- Multiple Texture Options
- Multiple Glass Frames
- Paintable/Stainable Components

* While stocks components needed to build many of the Door Units shown in this catalog, not all combinations of options are available in all Unit Widths. Most Door Unit Builds that appear in this catalog can be built in either Woodgrain or Smooth skin type Systems; however, there are some that will only come in the Skin Type shown in the catalog for certain Door Unit Widths. For more

information, consult the availability guide in the back of the book.

AVAILABILITY GUIDE

Availability Guide	P. 88-95
--------------------	----------

COASTAL

The Coastal home style is relaxing, light, and breezy. Its open design and lighter tones mirror the natural beauty of the shoreline.

CONTEMPORARY

Contemporary homes reflect the architecture and design of today. They represent sharp design and clean curb appeal.

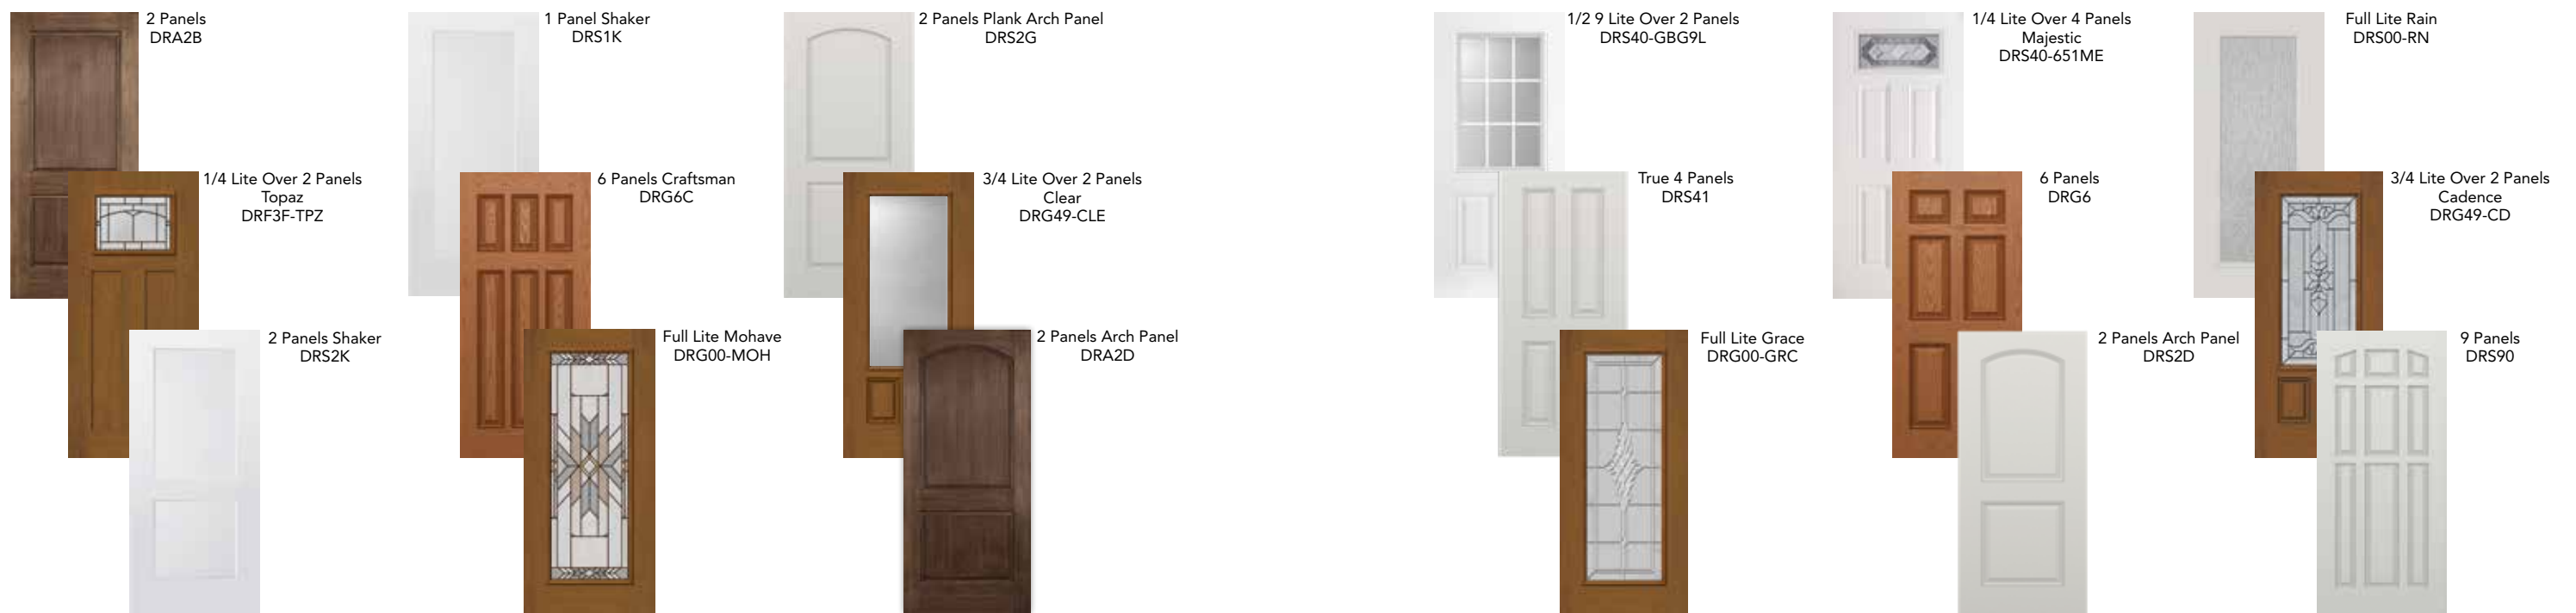

CRAFTSMAN

Craftsman homes emphasize hand-worked touches and beautiful detailing. Popularized at the turn of the 20th Century, it remains a popular design aesthetic.

CLASSIC

Classic homes are comforting and familiar. Their interiors are calm, orderly and consistent.

CARIBBEAN

The Caribbean design combines aspects of Mediterranean, Spanish, and many other tropical architectural styles. Rustic textures compliment vivid color schemes in an inspiring mix of old world charm and casual playfulness.

CUSTOM DESIGNS

CUSTOM DESIGNS

Decorative custom glass is our specialty.

Camed Designs
Caming is the thin metal work that joins together the door glass elements. Camed units are available as custom one-of-a-kind or complementary of any designs.

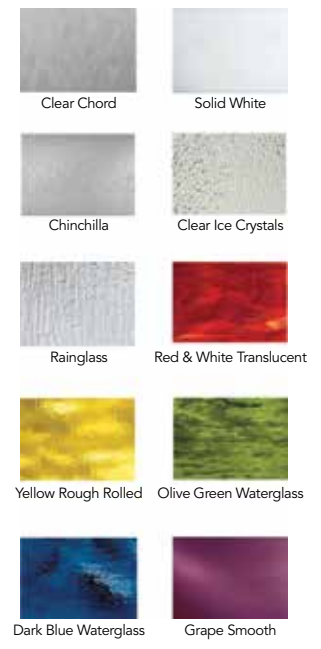

Metalist Designs
Our Metalist designs are composed of aluminum sheets cut to a design or style of your choice, and sandwiched between insulated glass. Metalist units are available from existing designs, as custom one-of-a-kind or complementary of any designs.

CAMING OPTIONS

GLASS OPTIONS

COLOR OPTIONS

GLASS OPTIONS

Bumpers keep the metal from rattling when opening and closing the door.

Kenyon's Glass prides itself on being one of the leading manufactures of custom decorative glass for the building industry. We provide design expertise and production of custom decorative panels for doors, sidelites transoms, windows and other unique installations.

One Light Turtle Glass

Turtle Glass is Solar Gray - Solar Gray (SGSG).

Thousands of marine turtles nest in U.S. coastal areas. State and local ordinances protect hatchling turtles by limiting the brightness of inside-to-outside visible light transmittance.

All turtle glass designs shown below have been constructed to meet those local standards.

Ventilating Doors

This product by DLP Industries is an operational window insert/door combo. When the window is open, fresh air is introduced into the home, eliminating the need for a screen door.

Perfect for beach side residential dwellings. Excellent for condominium doors, patio doors, cabana bath doors, and side garage doors .

Manufactured in Florida.

The following optional glass types are available.

Low-E	Milky White	Obscure	Gray*	Turtle*

Insulated Pet Door

Don't keep your best friend waiting!

- For pets up to 90 lbs
- This system meets ASTM F588 300 lbs forced entry
- Meets structural, cycle, impact, and water testing for Florida's WBD regions. DP rating: Inswing +50 /-60 Outswing +45 /-45
- Low maintenance, energy efficient, extremely durable flap and frame

The flexible flap uses durable vinyl weatherstrip and rare-earth magnets to create an energy efficient seal when not in use.

The flap is clear so you and your pet can see whats on the other side

Available in the following size:
Large Pet: 10-1/4" wide X 15-1/4" high flap

Interior view

Exterior View

Insulated Pet Door

(Continued)

Each system comes with removable exterior and interior barrier panels. The interior barrier panel can be slid into place when you want to restrict your pet's access. The exterior barrier is secured with a key lock to keep small intruders and large storms out.

TRILENNIUMTM Multi-Point Locking System

Security. Strength. Reliability. Performance.

Unmatched security doesn't have to mean compromised style. Trilennium offers a growing portfolio of attractive handset designs that work in conjunction with a locking mechanism which installs into a router carved pocket in the edge of your door. This mechanism features one solid unit with three latches based on patented I-Beam construction for reliable, proven strength and performance. Operating as one unit, all three latches engage when the door is closed. One movement of the thumb-turn or key turn activates all three deadbolts. Each latch is a deadbolt which adds increased protection for any entryway.

- Patented Strike Rollers and latches draw the door panel into perfect alignment with the jamb for a tight seal with no deflection
- A single downward turn of the interior handle releases all three deadbolts making it panic-proof
- Manufactured in the USA

FEATURES

COMPONENTS

AVAILABILITY
GUIDE

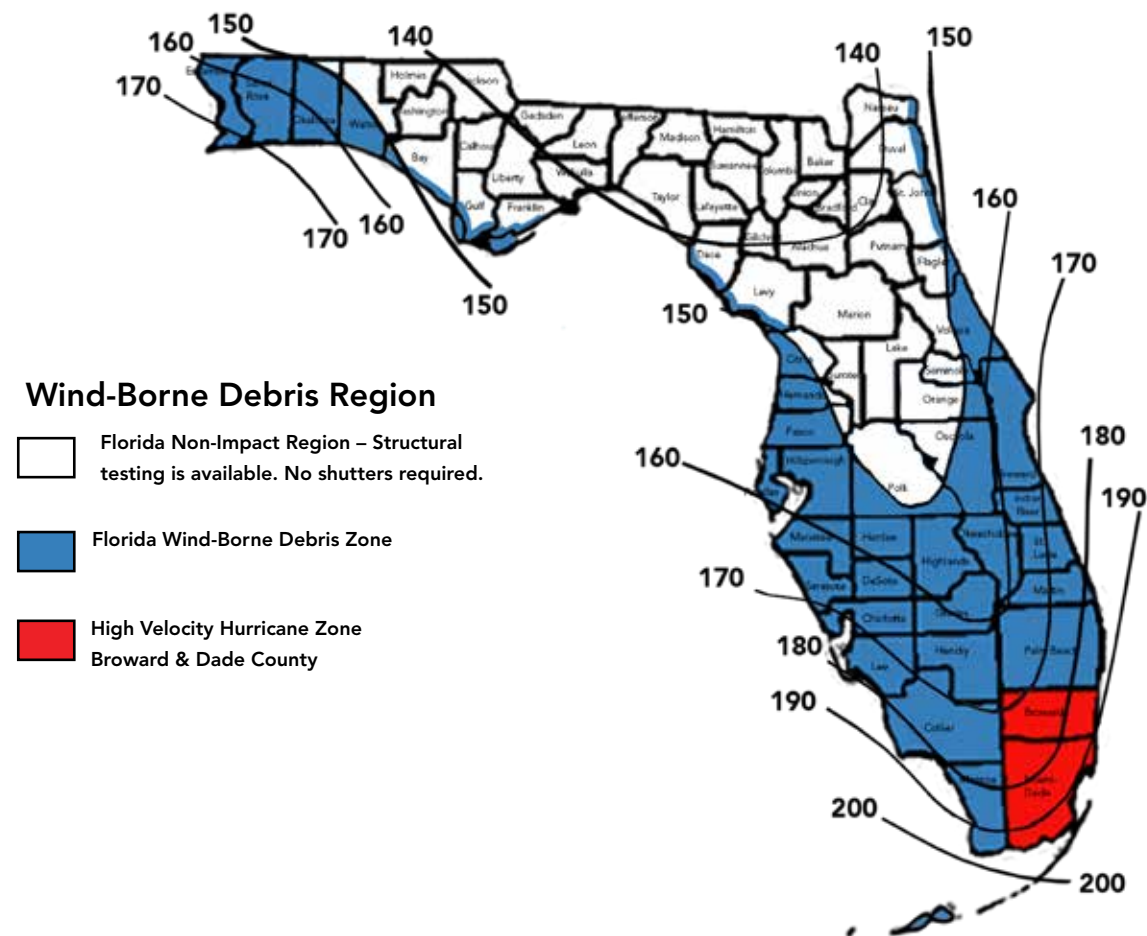

APPROVALS, SPECS &
COMPONENTS

Our expertise in Florida and High Velocity Hurricane Zone (HVHZ) building codes means you can trust Doors systems to comply with the unique requirements needed for hurricane code compliance.

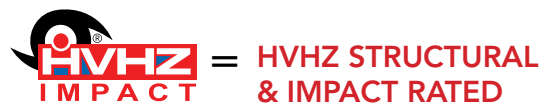

Impact units have structural ratings and may be used in the HVHZ and/or WBD impact zones without shutters required.

Doors made to withstand high pressure

We do not warrant the suitability of any product for any specific use. For additional code information, contact a representative, speak with a local plans examiner's office, or contact a contractor or engineer.

ENERGY COMPLIANCE

Our suppliers of major fenestration components have made it a joint effort to focus on compliance with the Florida Building Code - 5th Edition Energy Conservation.

Catalog pages containing only product that meet the minimum energy standard for both solar heat gain coefficient (SHGC) and U-Factor in both climate zones will display this logo at the top of the page:

Individual products that DO NOT meet the minimum energy standards will display this logo:

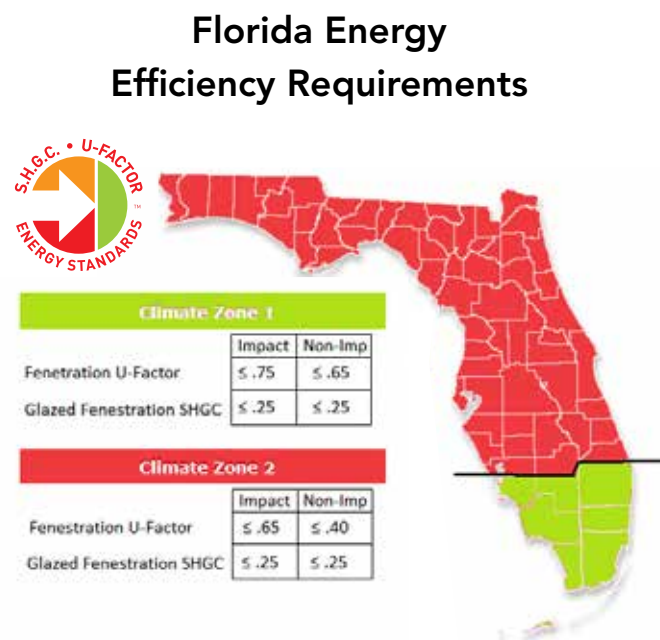

Individual products that DO meet the minimum energy standards will display this logo:

ENERGY CODE EXEMPTIONS

There are also exemptions for products that DO NOT meet the energy standards.

The Prescriptive method of compliance allows up to 15 square feet "of glazed fenestration" per dwelling unit to be exempt from the U-factor and SHGC requirements R402.1.(1), and also one side hinged opaque door assembly up to 24 square feet to be exempt from U-factors (Section R402.1.(3 & .4)). If using this exemption, doors bearing this mark may be used as single door units. Other exemptions for doors bearing that mark may be used when using whole house energy engineering compliance method.

ENERGY LABELING

Labels will have specific certified products directory (CPD) numbers listed. These are the numbers listed in the certified products directory of the National Fenestration Rating Council (NFRC). The CPD numbers are also listed with our third-party quality assurance provider, National Accreditation Management Institute (NAMI) for thermal quality assurance compliance.

Doors that meet the Energy Standards will have at least 2 Energy Performance labels.

- One permanent label attached to the hinge side of the door slab.
- One temporary label which will be attached to the face of the door.

STRUCTURAL CERTIFICATION LABELING

Builders Hardware inc.
 Plastpro/Nanya Plastic FL# 15210.4
 MANUFACTURER STIPULATES CONFORMANCE TO:
 TAS 201,202,203 - ASTM E48 NOA 17-0712.05/16-0314.11
 DP RATING +75-75 PSF 1/8", 1/2", 1" GLAZED UNIT IN/OUT
 MAX TEST SIZE 3/0 X 6/8 X
 FL CERT # 1773 ANSI # 0651

Specific Labels are used when exact design pressure ratings are required for specific size door configurations, within our test matrix qualifications. Structural Certification Labels are created for specific units with specific stipulations which conform to varying codes within the state.

We do not warrant the suitability of any product for any specific use. For additional code information, contact a representative, speak with a local plans examiner's office, or contact a contractor or engineer.
