

IN STOCK

2023 EXTERIOR NON-IMPACT CATALOG

Quality components create the total package.

Collection of best-in-class components (doors, doorglass, frames, astragals, weather seals, thresholds, locksets, and hardware) used to create entry systems with enduring good looks and superior performance. The majority of our door systems are tested to the HVHZ (High Velocity Hurricane Zone) standards, the most stringent hurricane codes anywhere in the United States. Most all of our Door systems meet the minimum Florida Energy code.

Great craftsmanship, beautiful glass patterns, multiple finish hardware options, superior construction, and energy-saving features all come together in a wide range of entry systems that enhance the value of your home and add beauty to everyday living.

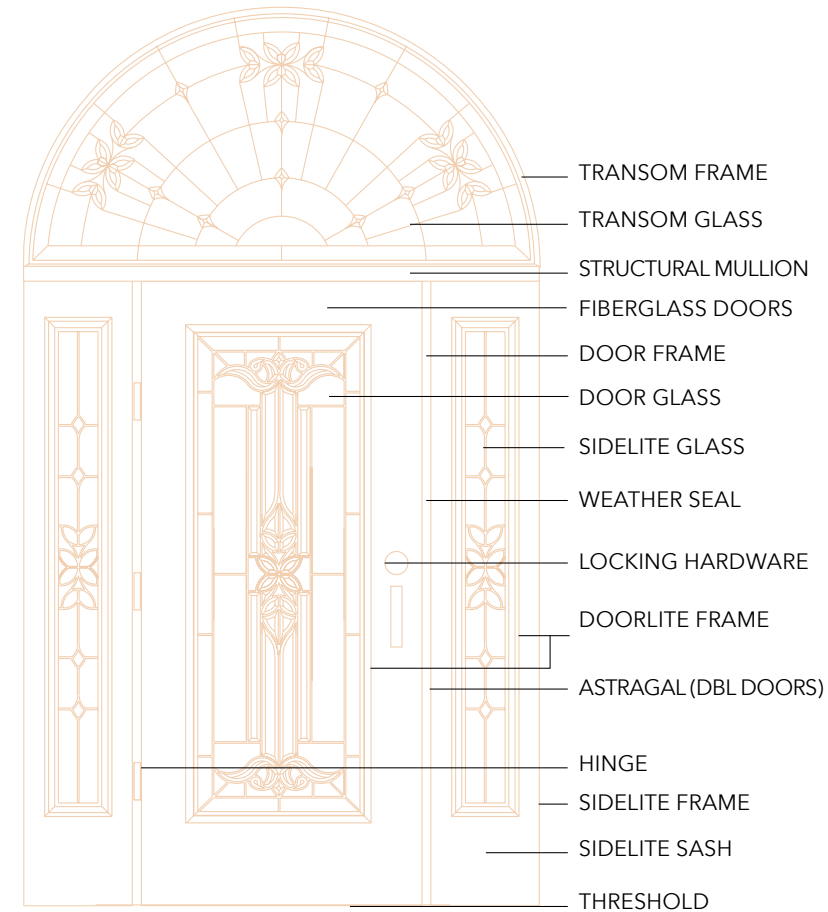

BHIDoors Commitment

All products featured are in stock ready to be built unless marked special order.

Unless otherwise noted, all products featured can be built into door systems that are compliant with hurricane structural, hurricane impact and the latest energy codes.

We continue our commitment to service excellence as we bring enduring beauty and value to exterior doors throughout Florida. – Established in 1954.

THRESHOLDS & ASTRAGALS

For additional security and weather protection our systems use DLP thresholds and astragals.

RESIDENTIAL LOCKSETS

Superior functionality and long lasting beauty.

RESIDENTIAL HARDWARE

Easy installation and secure performance.

Weather-seals

Keep cool air in and keep bugs out while benefiting from improved energy efficiency.

TRILENNIUM™ MULTI-POINT LOCKS

The ultimate fiberglass door security system. Multiple latches and bolts prevent forced entry and create additional weather sealing.

DOOR ACCESSORIES

Give your door more character by adding speakeasies, dentil shelves, or clavos.

Add beauty to and increase the value of your home with ODL's innovative line of doorglass.

FIBERGLASS DOORS AND PF FRAMES™

A lifetime of exceptional durability and performance for every door around your home.

CUSTOM GLASS

Custom glass for doors, sidelites, windows and transoms.

VENTILATING DOORS

Let in the breeze without compromising security with an optional window insert in your door (with a security screen).

ETCHED GLASS

A Unique line of doorglass inserts styled for Florida living. Etched glass displays traditional sandblasting.

STANDARDS

Sustainability

Your Entry System will be built to stand the test of time in Florida's often unforgiving climate. We strive to use as many Eco-Friendly and Energy Efficient components as possible to preserve the environment and help lower your energy bills.

- Entirely Composite Frames
- Insulated Fiberglass Doors
- High Quality Weatherstripping
- Low-E & Turtle Glass Options

Accessibility

Your Entry System can be designed to help you and your loved ones easily access it. We carry multiple A. D.A. compliant components and hardware options specifically designed with the ease of use in mind.

- A.D.A. Slabs, Glass, & Hardware
- Ball Bearing Hinges
- Spring Hinges
- Code Approved Pet Doors

Security

The same added strength that helps Impact products protect your home from hurricanes, can also help protect your home from intrusion. In addition, your Entry System has many other component and hardware options designed to give you peace of mind.

- Impact Slabs & Glass
- Multi-point Locking Systems
- Touchscreen Deadbolts
- Privacy Glass

Appeal

Enhance the beauty of your home with our wide variety of Art Glass options from 5 different design families. Whatever your home's aesthetic is, we've got the Entry System you need to make an even bigger impression.

- Camed & Etched Glass
- Multiple Texture Options
- Multiple Glass Frames
- Paintable/Stainable Components

*Stocks components needed to build many of the Door Units shown in this catalog, not all combinations of options are available in all Unit Widths. Most Door Unit Builds that appear in this catalog can be built in either Woodgrain or Smooth skin type Systems; however, there are some that will only come in the Skin Type shown in the catalog for certain Door Unit Widths. For more information, consult the availability guide in the back of the book.

--------------------	----------

DESIGN IDEAS

DESIGN IDEAS

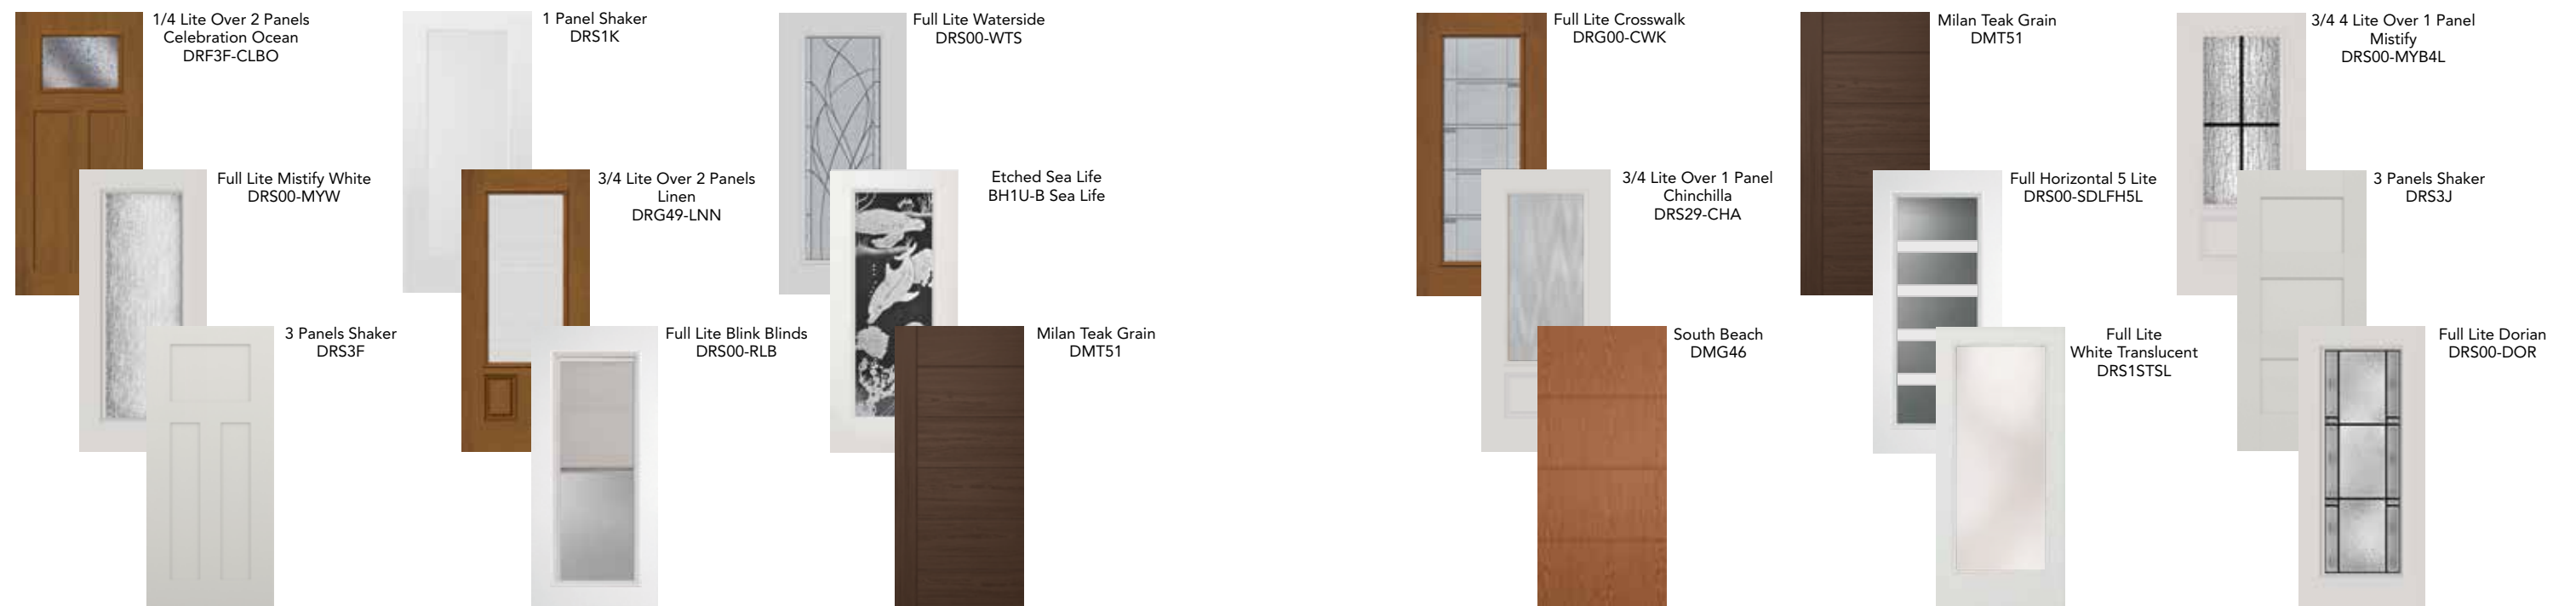

COASTAL

The Coastal home style is relaxing, light, and breezy. Its open design and lighter tones mirror the natural beauty of the shoreline.

CONTEMPORARY

Contemporary homes reflect the architecture and design of today. They represent sharp design and clean curb appeal.

DESIGN IDEAS

DESIGN IDEAS

CRAFTSMAN

Craftsman homes emphasize hand-worked touches and beautiful detailing. Popularized at the turn of the 20th Century, it remains a popular design aesthetic.

CLASSIC

Classic homes are comforting and familiar. Their interiors are calm, orderly and consistent.

DESIGN IDEAS

CARIBBEAN

The Caribbean design combines aspects of Mediterranean, Spanish, and many other tropical architectural styles. Rustic textures compliment vivid color schemes in an inspiring mix of old world charm and casual playfulness.

CUSTOM DESIGNS

CUSTOM DESIGNS

Decorative custom glass is our specialty.

Camed Designs

Caming is the thin metal work that joins together the door glass elements. Camed units are available as custom one-of-a-kind or complementary of any designs.

Metalist Designs

Our Metalist designs are composed of aluminum sheets cut to a design or style of your choice, and sandwiched between insulated glass. Metalist units are available from existing designs, as custom one-of-a-kind or complementary of any designs.

ODL SDL

LOW-E

A mill finish grille between glass with external grilles provides the look of a true divided light.

All door units shown below are stocked in Clear Low-E glass. Baroque, Blanca, Chinchilla, Micro-Granite, Rain, and Streamed textured glass can be special ordered.

Baroque Blanca Chinchilla
Micro-Granite Rain Streamed

7/8" Internal Grille
1 1/8" External Grille

Ventilating Doors

This product by DLP Industries is an operational window insert/door combo. When the window is open, fresh air is introduced into the home, eliminating the need for a screen door.

Perfect for beach side residential dwellings. Excellent for condominium doors, patio doors, cabana bath doors, and side garage doors. Manufactured in Florida.

The following glass types are available.

*Insulated
Pet Door*

Don't keep your best friend waiting!

- For pets up to 90 lbs
- This system meets ASTM F588 300 lbs forced entry
- Meets structural, cycle, impact, and water testing for Florida's WBD regions. DP rating: Inswing +50 /-60 Outswing +45 /-45
- Low maintenance, energy efficient, extremely durable flap and frame

The flexible flap uses durable vinyl weatherstrip and rare earth magnets to create an energy efficient seal when not in use.

The flap is clear so you and your pet can see whats on the other side

Available in the following size:
Large Pet: 10-1/4" wide X 15-1/4" high flap

Interior view

Exterior View

*Insulated
Pet Door*

(Continued)

Each system comes with removable exterior and interior barrier panels. The interior barrier panel can be slid into place when you want to restrict your pet's access. The exterior barrier is secured with a key lock to keep small intruders and large storms out.

HURRICANE COMPLIANCE

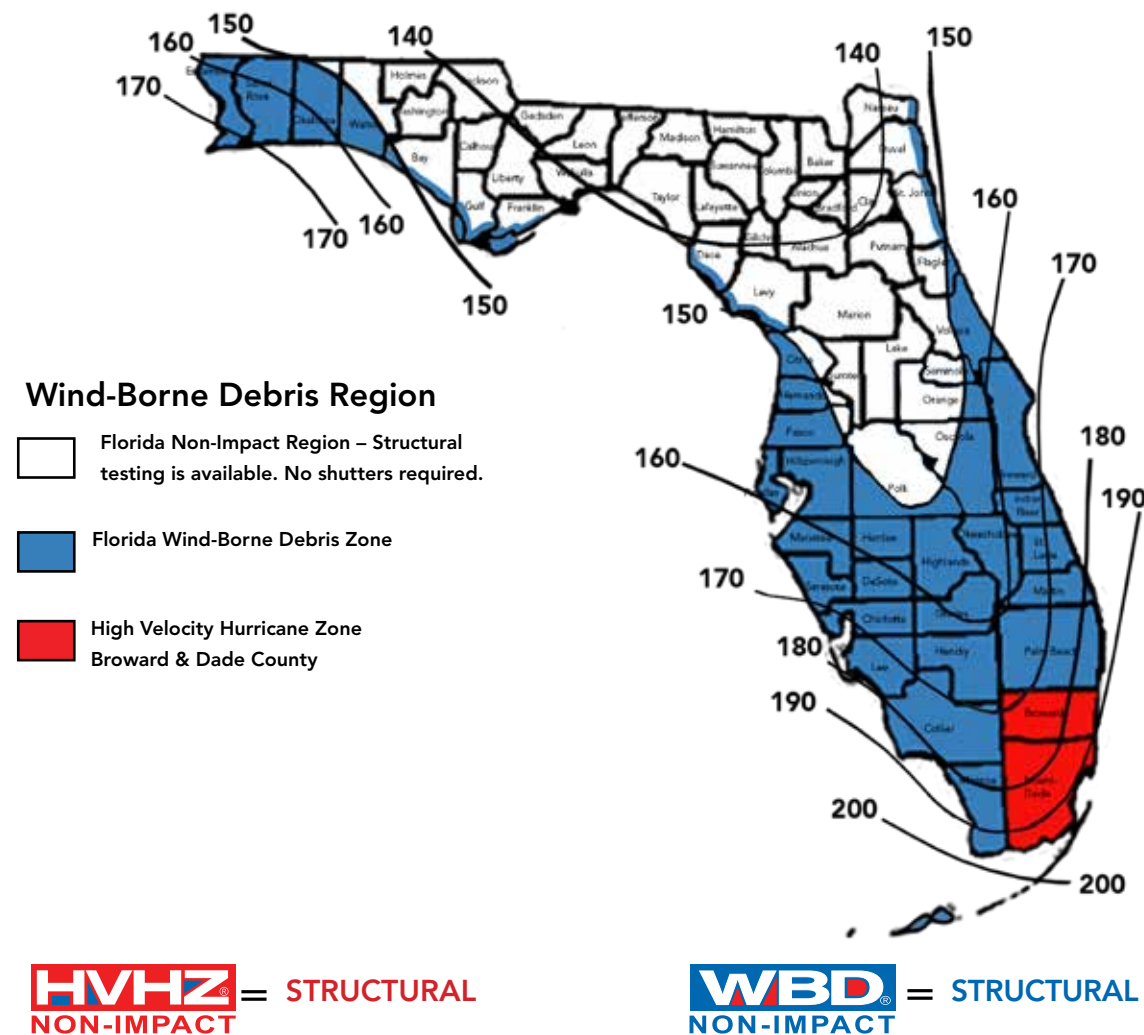

HURRICANE COMPLIANCE

NON-IMPACT

Doors made to withstand high pressure

Our expertise in Florida and High Velocity Hurricane Zone (HVHZ) building codes means you can trust our doors systems to comply with the unique requirements needed for hurricane code compliance.

Non-Impact units have structural ratings and may be used in the HVHZ and/or WBD impact zones with certified shutters required.

We quote and order acknowledgments list the product approvals needed for each pre-hung door system. For additional code approvals and specific design pressure ratings, please see Price & Availability Guide

Some doors are approved for HVHZ for in-swing application but may have overhang requirements. Some systems with very high design pressure ratings may require surface bolts, and/or dead bolt security strikes.

We do not warrant the suitability of any product for any specific use. For additional code information, contact a representative, speak with a local plans examiner's office, or contact a contractor or engineer.

ENERGY COMPLIANCE

ENERGY COMPLIANCE

We and our suppliers of major fenestration components have made it a joint effort to focus on compliance with the Florida Building Code - 5th Edition Energy Conservation.

Catalog pages containing only product that meet the minimum energy standard for both solar heat gain coefficient (SHGC) and U-Factor in both climate zones will display this

logo at the top of the page:

Individual products that DO NOT meet the minimum energy standards will display this logo:

Individual products that DO meet the minimum energy standards will display this logo:

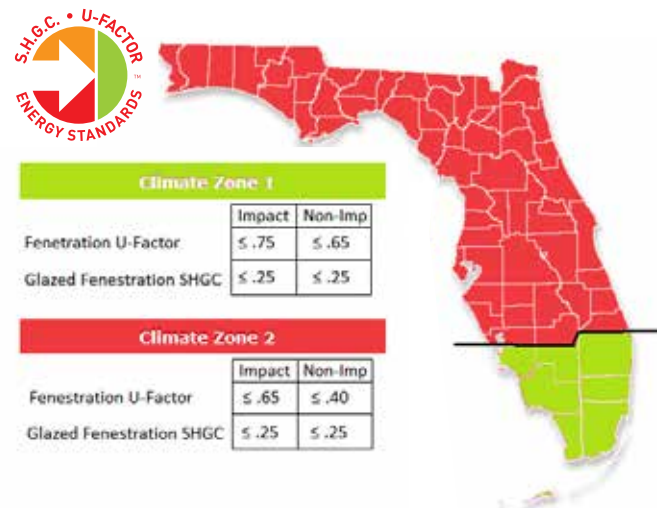

ENERGY CODE EXEMPTIONS

There are also exemptions for products that DO NOT meet the energy standards.

The Prescriptive method of compliance allows up to 15 square feet "of glazed fenestration" per dwelling unit to be exempt from the U-factor and SHGC requirements R402.1.(1), and also one side hinged opaque door assembly up to 24 square feet to be exempt from U-factors (Section R402.1.(.3 & .4)). If using this exemption, doors bearing this mark may be used as single door units. Other exemptions for doors bearing that mark may be used when using whole house energy engineering compliance method.

Florida Energy Efficiency Requirements

ENERGY LABELING

Labels will have specific certified products directory (CPD) numbers listed. These are the numbers listed in the certified products directory of the National Fenestration Rating Council (NFRC). The CPD numbers listed are also listed with our third-party quality assurance provider, National Accreditation Management Institute (NAMI) for thermal quality assurance compliance.

Our doors that meet the Energy Standards will have at least 2 Energy Performance labels.

- One permanent label attached to the hinge side of the door slab.
- One temporary label which will be attached to the face of the door.

STRUCTURAL CERTIFICATION LABELING

Builders Hardware inc.
 Plastpro/Nanya Plastic FL# 15210.4
 MANUFACTURER STIPULATES CONFORMANCE TO:
 TAS 201,202,203 - ASTM E48 NOA 17-0712.05/16-0314.11
 DP RATING +75-75 PSF 1/8", 1/2", 1" GLAZED UNIT IN/OUT
 MAX TEST SIZE 3/0 X 6/8 X
 FL CERT # 1773 ANSI # 0651

Specific Labels are used when exact design pressure ratings are required for specific size door configurations, within our test matrix qualifications. Structural Certification Labels are created for specific units with specific stipulations which conform to varying codes within the state.

We do not warrant the suitability of any product for any specific use. For additional code information, contact a representative, speak with a local plans examiner's office, or contact a contractor or engineer.

COMPONENTS

Aluminum Astragals

Aluminum exterior door T-astragals that offer security, and also stand out with honor among the best under Florida building code testing.

Available in White or Tan Primed in 6/8, 7/0 and 8/0 sizes

Adjustability

4-way adjustable (horizontal and vertical) strike latch plates.

Security

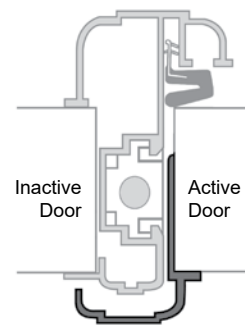

Flip lever locks

Precision

Slide bolt with machined center punch allows for precise bolt location and ease of installation.

Flat Contoured

Add on an Astragal Security Strip to any outswing double door combination for added security and clean finished appearance eliminating the reveal between the doors.

Aluminum Thresholds

Keep the bugs out and the air in. Available for inswing, outswing and handicap accessibility doors. Available as Mill, Black, or Bronze Finish.

Sizes: 4 9/16, (extenders for 5 1/4, 6 9/16, 7 1/4)

INSWING

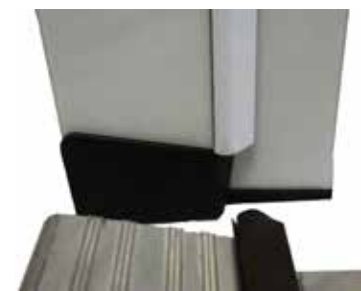

OUTSWING

OUTSWING HVHZ

Weather seals

When it comes to keeping the good weather in and the bad weather out, Weatherseals are the REAL deal. Available in White, Black or Bronze

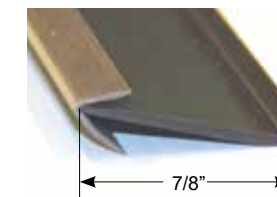

Optional Jamb Seal

Optional Corner Seal

Optional Corner Seal

Outswing Door Top Seal (optional)

Wrap Around Door Sweep

Screw-On Door Sweep

COMPONENTS

DOOR STYLIZER

Hinges

Specially designed for high-performance and tested for long lasting endurance. We offer the best-in-class hinges in stainless steel, and most popular U.S. colors.

Your Door Stylizer™

Create Your Dream Entryway!

SCAN WITH YOUR SMARTPHONE

This tool allows homeowners to visualize how various ODL® Doorglass options will look in their home entryways. YOUR DOOR STYLIZER™ uses a guided design process that helps homeowners customize their entryway by replacing glass, adding glass or replacing their door. Once the user has created their dream entryway, they can save, email, share via social media or print their project to make doorglass ordering a snap.

What's Your Style?

Classic? Contemporary? Something in Between?

Find the doorglass style that suits you and your home perfectly.

UPLOAD A PHOTO OF YOUR HOME or select a sample from our gallery. Then explore, get inspired, and create the entryway that is made for your home. You can also create an account to save your photos and favorite designs.

The screenshot shows the ODL Door Stylizer web application. At the top, it says 'ODL DOORGLASS' and 'YOUR DOOR STYLIZER™'. Below that are navigation links: 'CREATE ACCOUNT | ACCOUNT LOGIN | SAVE YOUR DESIGN | HOME'. The main interface has a 'STYLE' tab selected, with a 'FAMILY' dropdown and a 'CHOOSE A NEW PROJECT' button. A row of style thumbnails includes Classic, Eclectic, Craftsman, Contemporary, Old World, Blinds & Shades, Severe Weather, Simulated Divided Light, and Grille Between Glass. Below this is a 3D rendering of a house with a new door. To the right of the rendering are tabs for 'GLASS', 'COMPARE', and 'SUMMARY'. Under 'SUMMARY', there are buttons for 'Print', 'Save JPG', and 'E-mail', along with 'Find Your Local Distributor' and 'Share your project on Facebook'. A 'GLASS 1' section shows a product preview and details: 'Product: 686', 'Style: Classic', and 'Family: Expressions - Brass Caming'. At the bottom right, it says 'POWERED BY RENO Works'.

AVAILABILITY GUIDE

AVAILABILITY GUIDE

This Availability Guide can be used to determine if the door system you want can be built in the Width you need. Each Row indicates one combination of Design, Build, Unit Height and Skin Type Options. You will be able to see what Widths are available for that combination off to the right.

Availability for Double Door Units (-D) is the same as for the Single Door Units (-S) that use the same width door slabs.

A **Black Dot** indicates that combination is available in the specified width.
 A **Red Dot** indicates that combination is available in the specified Width, but only using a reinforced "IR" version of the door slab.
 This "IR" version of the door slab can cost more than the standard version used in Unit Widths with Black Dots.

Glass Door Units shown in this catalog are not built to the recommended standards for passing either the Wind Borne Debris (WBD) Region or HVHZ Region impact testing; however, they do meet recommended standards for passing the WBD Region structural testing - which means they can be used in the WBD Region with an approved Shutter System in place. Door Units without glass installed in them (solid/ opaque) are recommended for passing both the impact and structural standards in the WBD Region- which means they can be used there without a Shutter System.

For Door Units (Glass or Solid) recommended to meet the structural and impact testing standards of both the WBD and HVHZ Regions, please see our 2023 Impact Catalog.
