A LIFETIME OF OPENINGS

CUSTOM-CARVED MDF

## THE CORE MAKES THE DOOR

IT'S WHAT'S INSIDE THAT COUNTS

Timberland's doors are made from high-quality solid core medium density fiberboard (MDF) and are **precisely routed** to your desired design specifications with our advanced CNC machinery.

We use only high-grade MDF, known for its resistance to warping, splitting, cracking, and rotting. Its natural resistance to damage from moisture, insects, and temperature fluctuations make MDF **ideal for Florida** and other coastal areas with high humidity and salt.

Beautiful homes deserve solid doors, and MDF offers great value as an alternative to traditional wood. Its high level of **sound absorption** and inherent weight add privacy and a noticeable feeling of quality to your home.

It is **environmentally friendly** and built to outperform wood for painted applications.

## THE EASY CHOICE

Because these doors are router carved, we have tremendous flexibility to modify the pattern to meet your style and creative needs. Our process offers superb customizability and easy replacement years later if damage were to occur.

**SturdyStrips™ Engineering** – Each door we create has full-length wood grain hinge strips installed on both edges. An innovative wedge shape adds extra strength and provides a clean solid edge with excellent holding power. This provides flexibility in hinge location, a smooth finish, and additional rigidity to further prevent warping.

**Primed for Perfection** – Our premium-grade factory priming process quick-bakes our water-based primer to provide a superior smooth finish. Each door leaves the factory sealed, ready for finished painting when it arrives.

CNC + MDF = MODERN MASTERY

DELIGHT IN THE DETAILS OF YOUR OWN STYLE

YOU INSTINCTIVELY RECOGNIZE THE FEEL OF A QUALITY DOOR

*Style matters*

THINK ABOUT HOW  
**YOUR DOOR DECISIONS**  
HERE & NOW WILL AFFECT  
**YOUR DECOR DECISIONS**

Often overlooked as a technical decision, the doors you choose are **essential** in the definition of your home's **style and character**. A wise investor knows quality doors are a critical component of a home's resale value because of the **internal appeal** they create.

We create **doors that draw attention** at an **exceptional value**.

EURO SERIES

DOUBLE DOORS

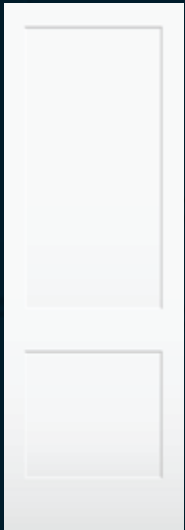

EXTRAORDINARY ELEGANCE

TOUCH QUALITY... EVERY DAY

## SHAKER SERIES

*Complement your home's aesthetic with the simplicity + serenity of this timeless classic.*

These doors feature the clean lines and flat panels that underscore traditional Shaker architecture. Ideal for homeowners desiring a style that reflects minimalism and modesty, our Shaker doors mimic stile and rail construction that provides the versatility of an 'old home' appearance with an ultra-modern elegance. Choose from a true square panel, ovolo, or square step sticking.

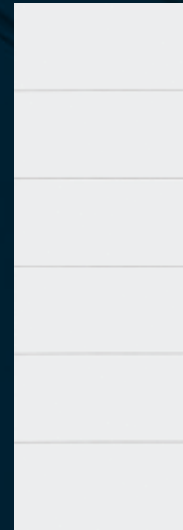

## STILELINE™ SERIES

*Dazzle with a distinctive style that establishes your true expression.*

With 150+ designs (each customizable to meet your specific creative design requirements), our Stileline™ series truly has something for every homeowner. Available in styles and designs that range from traditional to contemporary, simple to intricate, and basic to mesmerizing, these doors will draw as little or as much attention as you desire.

## EURO™ SERIES

*A sleek + modern look to give your home a refreshingly clean feel.*

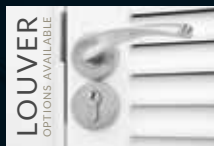

The doors in our Euro series feature uniquely simple designs that bring a modern look and feel to your home's interior. Don't be limited by our standard European designs - we encourage customers to create fresh new designs that reflect their unique contemporary style. Think clean Nordic appearance, think stark German engineering, think austere Dutch design... you get the idea.

## Standard Styles

All Shaker, Stileline™, and Euro doors are router carved, making them fully customizable. They all feature our SturdyStrips™ Engineering and premium-grade factory priming + sealing.

**Standard Specifications:** Height: 6'8", 7'0", 7'6", 8'0" (Available up to 10'0"). Width: 24", 28", 30", 32", 36" (Available up to 5'0") · Thickness: 1 3/8", 1 3/4". Available in Bifold as well as Fire Doors in 20-, 45-, 60-, and 90-Minute Rating.

*Please inquire about our premium service upgrades and add-ons!*

## Creative Customizations

**Express Services & White Glove Treatment** - Extreme extra care and individual attention available for customers needing speedy delivery and those who are diligent on the details.

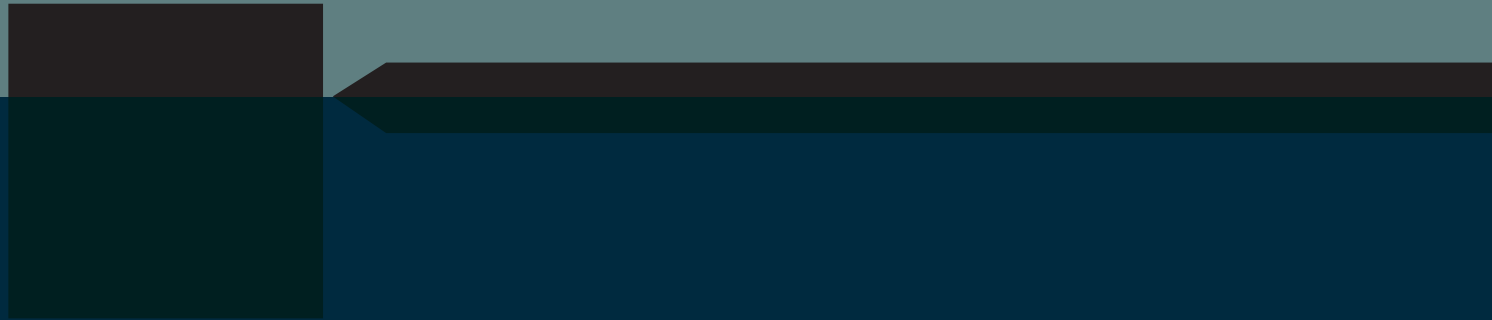

**Premium Customizations** - Our designers can help you customize any of our designs to your own unique style and individual preferences.
